Risk and disclaimer

Information in accordance with Article 47 of Act no. 45/2020 on Alternative investment Fund Management companies

Íslandssjóðir's risk management conducts regular stress tests for Íslandssjóðir's alternative investment funds. Stress tests assess the impact of different scenarios on funds' portfolios under normal and exceptional liquidity conditions. The risk and reward indicator demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. Risk factors that affect the value of a holding in the fund but the risk indicator does not cover are credit risk, liquidity risk, counterparty risk and operational risk.

Risk management monitors the funds' investment on a daily basis and whether investments are within risk limits. If a fund exceeds limits, e.g. due to market conditions or flow in or out of the fund, the fund manager is notified without delay and appropriate measures are taken. In the event of a violation of law requirements, it is reported to the Financial Supervisory Authority.

Various financial risks are always related to investment activities, such as the risk of no yield or the risk of losing the capital invested. It should further be noted that international investing includes risks related to political and economic uncertainties as well as currency risk. Past performance does not indicate nor guarantee future performance of an investment. Investing in financial securities always involves risk. The price and return of the fund reflects market fluctuations. The investors should bear in mind that the fund invests in domestic bonds. Furthermore, a fund of funds like the IS Private Global Fund is bound by law to diversify their investments between at least five different funds. Past performance does not indicate nor guarantee future performance of an investment.

Each investor's investment objectives and financial situation is different. Before making an investment decision, it is important to seek expert advice and familiarise oneself with the investment market and different investment alternatives. Investors are encouraged to familiarise themselves with the IS Private Global Fund prospectus, especially regarding risk, available on www.isfunds.is

This summary is informative in nature, and should not be interpreted as a recommendation to take, or not to take, any particular investment action. This summary does not represent an offer or an invitation to buy, sell or subscribe to any particular financial instruments.

Iceland Funds Ltd. is licensed to operate as a UCITS and Alternative Investment Fund Management Company in accordance with Act no. 116/2021 and Act no. 45/2020.
